PROJECTS

FUBER aka "Friends UBER" is an app that allows users to request help or lend a hand to their friends in need
TruZillow replicates the functionality of a real estate website using React Leaflet and Bridge Real Estate API
Universal Chat leverages Google Translate and socket.io to directly translate messages to the user based on their language
The Librarian allows the administrator to keep track of users that check out books from a "library"

EXPERIENCE

JPMorgan Chase & Co, New York, NY   **Dec 2016 - Jul 2019**

Corporate & Investment Bank (Securities Services) - Associate
- Facilitated internal financial reviews with business partners as part of the deal pipeline, including presentation of financials, chaired pricing meetings and facilitated escalation of pricing approvals
- Developed and built excel based pricing models in support of the Securities Services deal pipeline to facilitate commercial decision making
- Built and maintained strong working relationships across all Securities Services Products, Operations, Business Management and Sales & Relationship Management partners

United States Marine Corps   **Mar 2007 - Aug 2014**

Armory Supervisor/Operations Manager - Sergeant
- Led team of 5 administrative personnel with customer base of 200+, supervised bi-annual training requirements and performed annual performance reviews
- Oversaw the acquisition, inventory, storage, maintenance, transportation, and security of weapons and optics worth over $3M

Data Analyst - Corporal
- Developed a Microsoft Access Database that enabled the command to monitor, extrapolate, and derive real time staff and structure levels
- Created training aids, developed a classroom curriculum, and instructed 500+ administrators to teach the complex intricacies of the main database, which were later implemented as standard operating procedure
